

## Environmental Policy Statement

Alandale Plant & Scaffolding Ltd is committed to providing quality services and products for all of its projects regardless of the nature or size and to meeting the needs of all its clients by continually enhancing, reviewing & continually improving our quality systems with the intention of providing our clients with the quality of service they expect from a professional organisation.

With this in mind, it is our policy to work towards the realisation of the following objectives:

- To ensure compliance with relevant statutory requirements.
- To provide a professional service in accordance with the requirements of BS EN ISO 14001:2015 and other related company procedures.
- Total client satisfaction, measured using predetermined Key Performance Indicators.
- To be recognised by our clients as a professional organisation providing a quality, responsible service, therefore increasing the potential for further market penetration.
- The communication and implementation of the environmental policy, system and procedures at all levels of the organisation. Develop and maintain a culture that is self-critical, honest and transparent.
- Maintain an adequately resourced Environmental Assurance system that enables us to evaluate our strengths and weaknesses accurately and to respond to them accordingly whilst protecting the environment.
- Review our Environmental Management system through an effective internal audit, and management review process.
- To plan and implement effective procedures to prevent pollution incidents associated with our activities

The Environmental Policy, including this statement will be reviewed on (a minimum) of an annual basis.

It is the intention of the Board of Directors that the policies and procedures outlined and detailed within this policy are implemented on each project; adequate resources will therefore be made available to ensure this is achieved.

The Company believes strongly that responsibility for environmental assurance lies closest to the point of actual delivery. Therefore, all personnel are responsible for ensuring compliance with the requirements of the Environmental Management System which will be formally monitored using the internal audit system as required by BS EN ISO 14001:2015
